

We've Got You Covered.

Accutome provides a wide range of repair services including: Phaco Handpiece, Handheld Instrument, and Diamond Knives (all brands and all styles). Accutome can also repair a long list of ultrasound equipment. Our experienced staff provides quality, professional service utilizing technologically advanced in-house repair facilities.

Specific Repair Services Include:

Phaco Handpiece Repair

- Servicing all major brands, with 6 or 12 month warranty, 5 day repair turnaround

Diamond Knife Repair

- Any size and any style knife can be repaired, usually within 24 hours. We will refurbish your old handles when your diamond blades are repaired.
- Diamond Exchange Program allows you to upgrade or change blade designs and sizes as your incisional needs change. Accutome will replace the older blade in your diamond knife with a new state-of-the-art Clear Cornea, Simplicity one pass, or Phaco blade for the price of a repair.
- Exact Size Guarantee within 60 days of a diamond knife purchase, Accutome adjusts diamond widths at No Extra Charge should the surgeon require a larger or smaller incision.

Instrument Repair

- Any handheld surgical instrument can be repaired.
- Forceps – straightening, aligning and remanufacture forceps teeth
- Scissors - sharpening and refurbishing
- Hooks & manipulators
- Needle holders
- Speculums

Cryo Handpieces

Camera Repair

Servicing many brands including:

- Stryker
- Storz
- Dyonics
- Olympus
- Linvatec
